GRADING

Since we must satisfy both buyer and seller, we have done our utmost to give a fair and accurate description. In most cases the faults noted are not as serious as they sound, but faults had to be noted.

PHOTOGRAPHS by Michael Stokol

The few illustrated coins were photographed about 25% larger than their true size to better indicate the details of the smaller pieces. 50c and $1 coins actual size photographs.

Mr. Mace was not interested in die varieties, the rolls of coins should provide many pleasant surprises for the collector who wishes to add interesting variety items, such as are listed in Frank G. Spadone's "Major Variety and Oddity Guide of United States Coins." In a few cases the catalogue noted such items (the 1955 "Poor Man's Double Die") when checking the rolls. Suggested prices are for the common variety, unless otherwise indicated.

FOREWORD

We are proud to offer for sale the U.S. coin collection of Mr. Mace. Although we never met him personally we exchanged many items of correspondence with him and realized his genuine love for coins.

EDWARD DUFF MACE (1881-1967)

Edward Duff Mace, a native Kansan, was born in St. John, Kansas, October 13th, 1881. In 1903 he came to Spearville, Kansas, where he joined the Ford County Bank in 1904. Each week the parish priests brought their Sunday collections to the bank, and as he handled them his interest grew. It soon became evident to him that there were many foreign and early day American coins circulating in this part of Kansas. Here was the beginning of one of the finest collections in Western Kansas, which lasted for 60 years, until his death at 85 years on May 1st, 1967.

Mr. Mace opened his own Real Estate and Insurance office in 1920, which he operated until his death. Here he was the instigator of many a young person's interests in coin collecting in this small western Kansas town of 800 population. He has often been heard to say he collected the perfect coins, not the misprinted ones.

One of his greatest enjoyments over the years was the many collectors over the country who made special trips to visit with him. Another great pleasure was attending auctions and Numismatic conventions. He was very proud of his low number 8867 in the American Numismatic Association.

Mrs. Mace's death was in 1946. They had 2 children, Edward Kramer Mace who lives in Spearville, and Loraene Mace McCoy, married to Mr. Wayne E. McCoy of Dodge City, Kansas. Edward and Loraene presented their father's collection for sale so that other collectors can enjoy what made their father so happy. This collection is a treasure chest for the advanced and beginner collector, but it is also a source for the investment buyer. To own a "Mace" coin will be an honor.

READ CAREFULLY

TERMS OF SALE

1. Auction sales ARE NOT approval sales. Read these terms carefully. By submitting bids you agree to the terms set forth below. All coins have been classified by experts and while errors will be gladly corrected NO LOT MAY BE RETURNED WITHOUT WRITTEN PERMISSION. Request to return coins MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS. Gold coins cannot be returned from abroad until an import license is obtained. Returned American merchandise also needs import licenses.

2. All bids are to be by LOT as numbered in the catalogue. When identical bids are received, preference is given to earliest bidder.

3. This is a UNRESTRICTED PUBLIC AUCTION. All bids are entered as received and highest bidder will be the buyer. Mail bidders may feel free to submit any bid they wish and each lot will be purchased for such bidders at the next highest bid over room bidders.

4. Bidders must establish credit or have on deposit 25% of TOTAL bids.

5. Lots will not be available to room bidders at the Waldorf Astoria Hotel.

6. Mail bidders will receive their lots promptly after the end of the sale. All ACCOUNTS MUST BE SETTLED PROMPTLY IN U.S. FUNDS, or in other currencies if special arrangements have been made. We reserve the right to charge interest on overdue accounts. Many accounts are often finalized far too late and it disturbs the settlement with consignors.

7. Lots delivered in New York City are subject to 5% Sales Tax. Mail buyers in New York State pay 2% Sales Tax.

8. There will be no charge for executing bids but postage and insurance will be added, and a handling charge for heavy lots.

9. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER. We recommend however, if you want the lot, bid close to or over estimate.

10. All coins are genuine and as described. All descriptions have been written by Herman Steinberg. Photos are of actual items sold.

11. The buyer who acts as agent for third parties is the only person responsible for his purchases towards the auction house. Third parties refusing to accept coins from the agent are entirely the responsibility of the agent. The auctioneers cannot accept returns from agents because of third parties for any reason whatsoever unless coins were bought with specific special arrangements between the agent and the auctioneers.

12. Lots purchased by floor buyers cannot be returned.

13. Minor's bids are not accepted.

14. In case of dispute the decision of the auctioneer is at all times final.

WE SELL 200 LOTS OR LESS PER HOUR IN THIS SALE.

COINS ARE NOT SHOWN DURING SALE.

GRADING

Since we must satisfy both buyer and seller, we have done our utmost to give a fair and accurate description. In most cases the faults noted are not as serious as they sound, but faults had to be noted.

ILLUSTRATIONS

The few illustrated coins were photographed about 25% larger than their true size to better indicate the details of the smaller pieces. 50c and $1 coins actual size photographs.

COIN ROLLS

Mr. Mace was not interested in die varieties, the rolls of coins should provide many pleasant surprises for the collector who wishes to add interesting variety items, such as are listed in Frank G. Spadone's "Major Variety and Oddity Guide of United States Coins." In a few cases the catalogue noted such items (the 1955 "Poor Man's Double Die") when checking the rolls. Suggested prices are for the common variety, unless otherwise indicated.

WALKING LIBERTY HALF DOLLARS

Walking Liberty Half Dollars are generally not well struck at areas of the head and central portion of the hips and hand carrying branches. Well struck coins command premiums over uncirculated prices. All factors have been considered and are reflected in our estimated prices, which at the time of cataloguing were average retail selling price. The uncirculated coins in this consignment are unusually free of abrasions.

HISTORIA NUMORUM - $30.00

The Standard Work on Greek Coins

A MANUAL OF GREEK NUMISMATICS. Barclay V. Head. lxxxviii + 978, illus. LC 67-25818.

Reprinted from the 1911 edition, this manual remains a masterpiece of numismatic scholarship. The author produced a handbook in one volume containing in condensed form a complete and detailed sketch of the numismatic history of nearly every city, king or dynast known to have struck coins in the ancient Greek world. Considered by Shaw (**List of Books for College Libraries,** p. 32) to be the basic reference volume on Greek numismatics. With 7 indices and an extensive reference bibliography.

COINS OF THE ANCIENTS - $7.50

700 B.C. - A.D. 1

A guide to the principal coins of the ancients

by Barclay V. Head

The most concise guide to the coins of the ancient Greeks, Romans, Phoenicians, etc. lavishly illustrated with 792 coins in 70 plates. The introduction & the text guide the reader to an understanding of the development of the coin types in parallel with other monuments of ancient art. A valuable handbook in itself, or used in conjunction with other references on ancient numismatics.

It is to be noted that this book contains commentary on coins of the Romans and other ancient peoples, as well as eighteen additional plates, which do not appear in a recent reprint bearing a similar title.

ILLUSTRATIONS OF THE HISTORIA NUMORUM

by Svoronos and Head - **$7.50**

An Atlas of Greek Numismatics

Users of the famous **Historia Numorum** in all its English editions have long agreed that its only failing is the lack of illustrations of the most famous coins it describes. In fact these illustrations did exist, and now, in this reprint will be available once again. In 1898 Barclay V. Head prepared a portfolio of 35 plates illustrating over 400 coins, for use in conjunction with the modern Greek translation of **Historia Numorum** by the famous Greek numismatist - John N. Svoronos - This small volume is a necessary companion to each copy of the **Historia Numorum** already in a library or private collection.

Mr. Svoronos (1863-1922) was the founder and editor of the outstanding **Journal International d'Archaeologie Numismatique.** His most important work is in modern Greek, **The Coins of Athens,** published posthumously 1923-1916 and several additional books.

Barclay V. Head was extremely active in ancient numismatics and was the Keeper of Greek Coins in the British Museum. With his inimitable flair for making a potentially dull subject lively, he wrote **The Young Collector's Handbook of Greek and Roman Coins** which also appears in the Argonaut Numismatic Library.
